

Patient Consent Form

I. SERVICE DESCRIPTION

Your health professional '**Health Professional**' recommended the use of the software solution 'SmileMate' ('**SmileMate**').

SmileMate is a communication tool for health professionals and their patients ('**Patients**') that consists of a web platform for health professionals and patients ('**SmileMate Web Platform**'), an application recommended for health professionals ('**SmileMate app**') and a platform for analysing the data necessary for the functioning of SmileMate.

The SmileMate web platform allows:

- patients to send photographs of their buccal cavity to their health professionals.

The SmileMate app allows:

- Health professionals to take photographs of their patients' buccal cavities and send them to the SmileMate web platform, and to carry out secure virtual video consultations with their patients.

Please note that the SmileMate web platform is not a software solution for clinical management and must only be used under the supervision of a health professional.

Information and advice delivered from within the SmileMate web platform must not, under any circumstances, be a substitute for advice or prescription from your health professional.

Consequently, you must, in all cases follow the recommendations of your health professional and only discuss your treatment with your health professional.

II. PROCESSING PERSONAL DATA

DENTAL MONITORING SAS ('**DM**') is a control for both the quality of treatment and your personal data with your health professional.

Personal data protection is at the heart of DM's business.

We therefore invite you to take the time to read our personal data protection policy, so that there is no margin for error in the following points.

- What personal data do we collect?
- Why do we process your personal data?
- How do we share your personal data?
- How long do we save your personal data for?
- How do we protect your personal data?

- How can you exercise your rights?

III. CONSENT

I understand that my health professional remains solely responsible for my treatment. He/she is the only interlocutor authorised to give me medical advice. DM acts only as an interface in the patient - health professional relationship.

I acknowledge that I have taken the necessary time to read and understand the personal data protection policy and the consent form.

In using the SmileMate web platform, I understand that certain processed personal data constitute health data within the current regulations in force.

I certify that I am of legal age of majority as defined by the country of residence of my health professional, or that I give my consent in the presence of and under the responsibility of my legal representative.

By clicking 'accept', I consent that DM has the right to process my personal health data for the purpose of the services offered by DM, as shown in the policy on the protection of personal data.

Any copy of the consent form has the same value and the same authority as an original.

You may remove your consent at any time by contacting the DM representative for the protection of personal data at the following email address: privacy@dental-monitoring.com, or by post: Dental Monitoring SAS - Personal Data Protection, 75 Rue de Tocqueville, 75017 Paris, France.

Please specify the nature and details of your inquiry in your email or letter.

DM reserves the right to ask for supplementary information in order to verify your identity before proceeding with your request.

In the case of the withdrawal of your consent, please note that the web platform SmileMate can be discontinued if you object to the processing of your personal data, as is necessary for the service supplied by the web platform SmileMate.
